

Technical Data Sheet

Polymer Foam Polish

Version: F
Date of Update: 08/10/2019

Strong concentrated foam wax polish

Product Description

Polymer Foam Polish is a strong concentrated foam wax polish that meets the highest quality standards.

Properties

Polymer Foam Polish contains a lot of high quality polymers for a showroom shine and a good, long lasting paint protection. Polymer Foam Polish has been developed for use with hard and soft water. Polymer Foam Polish contains a nice coconut fragrance.

Direction of use

By adjusting the right proportion of air pressure, water and product, it is possible to make an easily rinse off-foam, which is massaged deep into the paintwork by the last mitter/ brush of the installation.

Next a wax or drying agent can be applied.

As perfect finish: dry the car.

Dosage: 10 - 20 mL/car (0,1 - 0,2%).

Specifications

Physical state	Liquid
Colour	Brown
pH	ca. 4.75
Boiling point	100 °C
Relative density	ca. 0.98
Solubility in water	100 %

Storage and Disposal

Keep only in the original container in a cool, well ventilated place. Keep container closed when not in use. Dispose in a safe manner in accordance with local/national regulations.

Safety instructions for the user

Keep out of reach of children.

Care should be taken to reduce the possibility of eye contact.

In case of eye contact, rinse immediately with plenty of water. Obtain medical attention if pain, blinking or redness persists. Seek medical attention immediately.

In case of ingestion, rinse mouth. Do NOT induce vomiting.

Please check the MSDS.
